

How Mushrooms Can Help Save the World

Findhorn College presents:

Paul Stamets (LIVE)

in the Universal Hall

Saturday, September 24th @ 19:30

Free entry (DONATIONS VERY WELCOME)

Be inspired by the healing power and wisdom of Fungi! Findhorn College is delighted to have the opportunity to host Paul Stamets. In 1998, Paul received the "Bioneers Award" from the Collective Heritage Institute. He is a regular speaker at the Bioneers conferences in the USA, as well as the TED conference. have a look at his company's *Fungi Perfecti* - website at: www.fungi.com

"Paul Stamets is a truly inspired world healer and a mushroom expert par excellence. His myco-technologies are offering effective and harmless ways to clean up the oil in the Gulf, heal polluted soils and streams, offer alternatives to conventional antibiotics and anti-viral drugs, revolutionize cancer treatment, provide increased local food security, restore the world's forests, and replace harmful pesticides. Don't miss this chance to meet the fungal kin-dom's most eloquent and passionate spokesperson!"

Daniel C. Wahl, Findhorn College
